FAIR PRICE LIST

Following is a list of maximum percentage of profit the retail merchant is allowed to charge over cost for any of the articles included, together with instructions as to how to arrive at the selling price.

The Fair Price Commission is acting in accordance with instructions from the Department of Justice at Washington, under authority given

them by the extension of the Lever Act, but instead of attempting to establish at one time a Fair Price List, covering all articles of merchandise, has taken for the present, at least, only a small number of the essential and more generally used food products, and the attached list is to become effective at once.

The department is fully aware of the patriotic efforts most of the re-

tail merchants have shown during the former Food Administration, as well as the present crisis of the abnormally high cost of living, and therefore, feels confident of the full co-operation of the retail merchants in complying with this list and the retail plying with this list and the Commission will deeply appreciate at all times a full and frank discussion with anyone relative to any suggestion they may have to offer, for it is our earnest desire to be perfectly fair to both the merchants and the public.

In arriving at the list, the Fair Price Committee of the Commission, called into consultation a large delegation of merchants, handling these products and was guided largely by their suggestions and we therefore believe the maximum margin of profit allowed is eminently fair and just.

These are maximum percentages of profit—any dealer may sell for less.

407 ACRES

EIGHT AND A HALF MILES FROM LEXINGTON ON THE LEMON'S MILL PIKE

In 3 Tracts at Auction Saturday, Feb. 7, 1920

AT 10:30 A. M., ON THE PREMISES

This land is located in the choicest section of the Blue Grass, being in the immediate neighborhood of "Castleton" and the Harkness estate, "Walnut Hall." This belt of land is recognized as being one of the most productive bodies of land in Kentucky. It has that rich, red soil with all those lasting qualities of fertility belonging to the farms on the North Elkhorn.

Farm No. 1 is the Thos. D. Morgan Home Place of 244 acres, located in Scott county and fronting on the Lemon's Mill Pike. It is improved by a nice Colonial home of 10 rooms, hall has winding stairway of walnut and ash, floors are ash, grate in each room, double presses to all bed rooms, side porch built for summer dining room; young orchard; ice house filled with ice; coal house; double brick meat house (capacity 50 hogs); garage; 12 box stall horse barn; feeding shed for 30 mules or cattle; dairy barn for 5 cows; crib-room for 1,000 barrels of corn; large machine shed; barn room for 30 acres tobacco; two tenant houses.

This farm is well fenced by mostly No. 9 wire, on concrete posts; and is well watered by large walled fish pond fed by never-failing spring, by Little Hickman Creek and by a stock passageway under the Lemon's Mill Pike to North Elkhorn.

100 acres of this farm is in virgin soil and old blue grass sod; 60 acres recently broken from virgin soil and old blue grass sod; 35 acres in wheat; 49 acres in timothy and clover sod for 6 years, was broken for corn last year.

Farm No. 2 fronts on Lemon's Mill Pike across from Farm No. 1 and is about one-half mile nearer Lexington. The rear of this farm borders North Elkhorn. It contains 163 acres and will be sold in two tracts.

Tract No. 1 contains about 85 acres and is improved by new 5-room cottage; all necessary outbuildings; a garage; small tenant house; 10-acre tobacco barn; stripping room, and corn crib. It is well fenced and is watered by North Elkhorn, 35 acres virgin soil and old blue grass sod; 20 acres wheat; 20 acres broken this year from timothy and clover sod. **40 acres of this tract is North Elkhorn bottom land, which means almost inexhaustible fertility.**

Tract No. 2 contains about 78 acres, fronts on Lemon's Mill Pike and adjoins Tract No. 1. It is unimproved. 25 acres recently broken from virgin soil; 30 acres in wheat, never been in tobacco; balance in North Elkhorn bottom land, lately broken from timothy and clover sod, in an exceptionally high state of cultivation and has never been in tobacco.

These two farms were recently purchased from Thos. D. Morgan by C. C. Buckley, T. C. Geary and Chas. Conner, of Lexington, Ky. They will be sold on above date without reserve or by-bid. If you want some of the best and richest land in the state, don't miss this sale.

Terms liberal and made known on day of sale. Free Burgoo dinner at noon. On same date and place we will sell at auction for Thos. D. Morgan the following: All household goods, including a new kitchen range; lot of sheep; good driving and work horses; all farming implements; also 100 barrels new corn (some in shock); lot of old corn, excellent for seed.

Mr. Morgan, who lives on Farm No. 1, will take pleasure in showing you any or all of this property.

BUY A BUICK AND BE SATISFIED

AMERICAN WOMEN MAY OVERCOME OLD H. C. OF L.

In his comment on current events, Richard Spillane in Commerce and Finance, has the following to say concerning the work of the women of America in their organized campaign for thrift and saving and against high prices:

"A wail is going up from women of these days owing to the poor quality of goods they get in the department stores and specialty shops and the low grade of workmanship.

"Stuff that ordinarily would not be handled by high class reputable establishments now is put on the counters and a price is put on it that is little short of robbery. Sales persons are just as contemptuous and supercilious in their treatment of persons who are shocked over the cheap, poorly made articles put on sale at outrageously high prices as if it were a favor to permit a person to buy anything these times at any price.

"The truth of the matter seems to be that in most staple articles, either textiles or furniture or anything else, there is carelessness and profiteering or worse all along the line. Labor is slipshod and manufacturers skimp in every possible way.

"The clothing people are particular offenders. They may not be responsible for the poorer quality of cloths, but they are responsible for poor workmanship on garments. They charge the poor quality of cloths to the mill men and then excuse themselves for the poor workmanship on garments by saying labor is out of hand, and the employer who protests against anything is in danger of having a strike or a new demand for increased pay, so they have to bear the ills they meet and try to wait in patience for time to adjust conditions.

"But if you are a friend, the clothing manufacturer will tell you in confidence he is having a very profitable year, the best in fact of his whole business career. Honesty in manufacturing and merchandizing seems to be at a pronounced discount, more of a discount than the dollar is today.

"Here's something worth while. Four hundred thousand women of Pennsylvania, members of organizations affiliated with the National Federation of Women's Clubs, have pledged themselves to earnest economy in household and other expenses in the first three months of the new year.

"Every woman is to keep a detailed account of her daily expenses and study for every reasonable reduction in expenditures. Every woman will strive to conserve food, fuel and clothes and eliminate waste of material and goods and labor. Every woman will keep track of every cent that is saved. Every woman will invest every dollar saved in government savings stamps, paying 4.27 per cent. interest and report to her state and city chairman as to the saving.

"That's business. More power to those good women, and all honor to them.

"If the men of the nation would follow suit many of the ills from which we are suffering would end.

"There is a specific for the woes of the work. It is simple and known to all men, but few accept it.

"What is it? Simply this: Work and save. We do too little of each, and never was this so true as today.

Commerce and Finance also makes the following editorial comment:

"In a letter to Mrs. W. H. Winslow, president of the Chicago Woman's Clubs, Mrs. Cyrus M. McCormack asks the women not to forget that there is still an important responsibility upon them as women to continue war-time conservation and exercise their influence and their self-control to stem the tide of extravagance and help to avert a national crisis." We hope this appeal will be heeded. The women's clubs of the United States exert a wide influence. If they will use it to make economy the fashion they will do a great service."

Money invested now in Liberty Bonds, which are a little below par on the market, is very much better than buying expensive clothing, furniture, jewelry and luxuries of all kinds, that command prices away above their actual worth.

REST ROOM

At the regular meeting of the City Council Tuesday night the question of a donation of \$100 annually for the support of the Rest Room was again brought before the attention of the Council by H. G. Hoffman and this matter which when originally offered failed to secure a second to the motion was seconded by Wm. Burns, a vote taken, resulting in a tie vote, which the mayor, with his deciding vote, untied, voting against the appropriation. From all we can learn of this it seems that the majority of the Council are under the impression that these Rooms are used solely by the women of the county and for that reason feel that it should be supported by the county. Were these facts true we would still be in favor of assisting the Rest Room, which is indeed a drawing card for Mt. Sterling, but the facts are that while we would say, 75 per cent. of the value does accrue to the country women fully that much of the expense is borne by the country women. Our merchants appreciate the value of such an attraction in our midst and contribute to its support and we can scarcely understand how anyone can fail to realize and appreciate its importance both to our women and to our city. However, we have not accepted of our own views entirely, nor will we, through these columns "laud anyone to the sky," as one of the Councilmen said of a previous editorial on this matter and commending those approving an appropriation, but we have interviewed a number of the leading women of the city and, without exception the plan is heartily endorsed. "Wise men change their minds," and we look forward with interest to a reconsideration on this subject.

To our mind the only concern of the Council should be, is this a worthy cause and that settled, have we the money sufficient from general expenses from which to make the appropriation.

HALF MILLION CASH FOR CLARK COUNTY LAND

Henry S. Caywood, the well-known farmer and stock dealer, of Bourbon county, has closed a trade whereby Mr. Caywood, Thomas Broek and Judge Hardwick, the latter two gentlemen from Clark county, became the owners of the Fields VanMeter farm, in Clark county. Nearly half a million dollars was involved in the transaction.

The farm, containing about 1,100 acres of land, is said to be the finest body of land, acreage considered, in

the State of Kentucky. It is located on the Van Meter pike, near Renick Station, and adjoins the Renick land and the farm of Mr. Prewitt Van Meter. It is said that the purchasers bought the land for investments, and that the large tract will be divided each party taking a third, a tentative division having previously been agreed upon, in the event a tempting offer of purchase, submitted to the owners for the 1,100 acres is not accepted by them.

Some men make up in abuse for what they lack in ideas.

100 1-2 acres of land lying about five miles from Mt. Sterling and 3-4 of a mile from Judy; faces on the dirt road about 200 yards from the Judy and Flat Rock turnpike and known as a part of the farm of the late Col. Thomas Johnson. All of it is in old blue grass sod and meadow except about 25 acres, which is sowed to rye. There are no improvements on this farm, but there is an excellent building site. Farm is well watered by never-failing springs. Good fencing and is in as fine a neighborhood as exists in the State. This farm joins lands of J. T. and J. P. Highland, and Wm. and Charles Highland. There is no need to tell anyone about the tobacco grown on the Somerset land, as everybody knows it grows the best tobacco produced in the county. If you want the best that money can buy, here is your opportunity. Will be glad to show prospective bidders this land and invite those interested to fully investigate every statement herein.

TERMS—Liberal and will be made known on day of sale.

MENEFEE PIPE LINE COMPLETED FEBRUARY 7

Final work toward the completion of the Menefee county pipe line running into Menefee county, connecting the production of that field to the main lines, will be finished by the Cumberland Pipe Line Company by Saturday or perhaps earlier, giving the contractors several days margin in the contract date, February 10. This line will carry out the Menefee county production which comes from about twenty producing wells, totaling 500 or more barrels daily.

Oil from the Menefee wells will be run as soon as the operators have their share of the work completed, as they have contracted to furnish steam for running the oil out from the field. This line joins the main line of the Cumberland Pipe Line Company at Hazel Green in Wolfe county, a distance from the Menefee county production of about 10 miles. It consists of six miles of four-inch, two miles of three-inch and two of two-inch pipe. This adds another line to the pipe line system of the Cumberland Pipe Line Company. This system runs like a net work through the productive area of Kentucky collecting oil from hundreds of producing wells in many counties. The company has spent millions of dollars in the State, which has resulted in one of the most efficient services of its kind in this country. This system is a boom to the oil operators, since it does not hesitate to take in

the small producer as well as the large, spending thousands of dollars gathering in little production from all areas. The new Menefee pool will add a substantial increase to Kentucky's output in oil which now averages one million barrels monthly. The runs of the Cumberland Pipe Line Company from the Eastern Kentucky fields average approximately 65,000 barrels weekly.

Dr. E. R. Hall, operating in Menefee county, reports that the initial well on the Wick Wells, 11 feet in the sand, filled up 50 feet with oil. This is located on the northern part of the Wells tract, east of the Pete Brown. This well extends the field 400 feet north and widens it about 80 feet. Reports received from Magoffin county show that the Southwest-

ern and Cliff Petroleum Companies on the T. M. Cooper farm on Bushy Fork are down 20 feet in the sand and have not yet encountered oil.

thing. "She's probably just as stuck up as she can be."

"And so overdressed!" said Marion. "Did you notice her diamond ring?" asked Elsie uncertain whether or not to praise the lovely stone whose lights had fascinated her.

Marion turned up her nose. "I should say I did. The idea of a little girl wearing a ring like that, and to school of all places. Well, she'll find her airs and graces won't go down in our room."

"Hello, there's Michael!" exclaimed the visitor, then she emitted a shrill whistle which caused the chauffeur of a passing limousine to look around.

"Well, so long, Elsie," she cried, as she ran down the steps.

"Goodbye," murmured Elsie gazing in admiration at the nonchalant manner in which Marion hopped into the limousine.

"Mother I'm glad we're not newly rich," she said.

Mrs. Maynard laughed, "I wouldn't mind," she replied. "What's the news, today?"

"Nothing much," answered the little girl. "O yes, somebody has smashed the windows of that empty house on Orchard street."

"Isn't it strange," said Mrs. Maynard, "that some people would rather wreck than build?"

"Yes," agreed Elsie. "That was a nice house. Whoever did it ought to be put in prison."

"You wouldn't like them for your friends, then?"

"Of course not. Mother! What are you thinking of?"

"Marion Bush!"

Elsie looked up, and met a gaze whose loving gravity surprised her.

"Yes, I heard Marion wrecking and smashing a few minutes ago. She was breaking the commandment, 'Thou shalt not steal.' What meaner stealing is there than taking away one person's good opinion of another?"

"But Mother, the new girl looked awfully proud and she had a diamond ring, wasn't that silly?"

"Any my poor little girl didn't even dare to think it was pretty or say anything to stop Marion in her smashing. Think, Elsie, of that new little girl coming, a stranger, into a school where all the children knew each other. Wouldn't that be a hard position for anyone?"

Elsie's cheeks were burning now, and her eyes were thoughtful. "Nobody ate luncheon with her," she admitted reluctantly, "because Marion said—"

"Never mind Marion," interrupted Mrs. Maynard. "The question to me is whether my child is going to be a wrecker or a builder."

"But it is so hard to do anything that Marion doesn't like," protested Elsie.

"Yes, but if you take a firm stand and show kindness to the new school-mate you will find the other children glad to follow your example. Marion's opinions rule many of you; but there is only one thing that should rule, and that is right. Let love guide you and remember the Golden Rule. I want to be the mother of a brave little girl, not a coward."

Elsie's brain was busy with thoughts of the new girl and the way she had all day tried to behave as if she didn't care what the other children did. She decided that she, herself, had been a coward.

"I wish it were tomorrow," she said suddenly.

"Why?"

"I'm going to begin to be a builder. no matter what happens."

BLUE GRASS FARM

—AT—

PUBLIC AUCTION

Mt. Sterling, Ky.

MONDAY, FEB. 16th

(County Court Day)

AT 1:30 O'CLOCK, P. M.

As agent for W. E. Jones, I will sell at the Court House door on the day and date above mentioned and at the hour specified, his splendid farm of

49 9-10 ACRES OF BLUEGRASS LAND

to be sold in three small tracts, subject to survey. The farm lays within one-half mile of the Montgomery County Court House between the lands of A. S. Hart and H. R. Prewitt, on the Hinkston pike, five hundred yards from the Maysville pike—the leading pike into Mt. Sterling—in the beautiful valley of Hinkston Creek. The farm is divided into ten fields, with three never-failing springs. About 45 acres of the land is in timothy, clover and blue grass; 2 acres in the finest of strawberries and 1 acre of St. Regis Ever-bearing Raspberries, which bear from June to October. The land is strong and rich, and ready for the very highest production of tobacco and other crops.

IMPROVEMENTS.

consist of a brick and stone house, of 6 rooms, bath room, two basements, one 20x30 with concrete floor, pointed to store all kinds of vegetables, preserves, etc.; one ten-acre tobacco barn, with shed 20x60 to feed cattle, with good racks; 20-barrel water tank at barn and corn crib that will hold 75 barrels of cattle corn; one corn crib, 150-barrel capacity, with concrete floor, one of the best in the State; hen house, with concrete floor, a good one; buggy shed and automobile house; one hot bed, concrete floor, 6x45 feet, for growing all kinds of plants; one spring house with tool house over it, with engine and pump for your water works, with a stand and tank at the barn. The spring has a basement of water 5x8 feet and 3 feet deep, which leads through the milk house, and has a trench for milk crocks, which are surrounded by water all the time. This is the finest spring in the State, and is worth thousands of dollars, for it never goes dry and has, in times gone by, furnished residents of Mt. Sterling with water in dry times.

The farm will be sold in three parcels, separately, and not as a whole.

TRACT NO. 1—Will contain about 30 acres and the improvements mentioned above. Land subject to survey. This tract adjoins A. S. Hart.

TRACT NO. 2—Adjoins the land of H. R. Prewitt, and has on it a good four-room frame house, and will contain about 18 acres. Land subject to survey. This tract has about 16 acres of grass and about 2 acres in cultivation and is well watered.

TRACT NO. 3—Contains about 1 9-10 acres of land, a good never-failing spring, and the up-to-date slaughter and packing house, brick engine room and sausage room.

In the past seven years this farm has had at least fifteen hundred loads of manure spread upon it, and this past year was used as a dairy farm, and is now as rich as cream. The farm has a long pike frontage on the Hinkston pike. It is one of the best tracts of land in Montgomery county and being close to the city, should appeal to all buyers of good, strong land, and especially should appeal to those who are looking for a small, rich, improved tract of land for a home, or an investment. Considering the size of Tract, No. 1, we frankly say that it is the best improved tract of land in Montgomery county, or in Central Kentucky. Just ready to grow any kind of crop, and bring in the coin—to produce the highest grade of Burley tobacco, the kind that sells for a dollar a pound, this farm offers the best opportunity to those looking for small places that they have had in many years. Look this place over and be a bidder, and remember that it is going to be sold in three tracts, thus giving the little buyer an equal chance with the large buyer.

Possession will be given March 1, 1920, and the terms will be 1-3 cash March 1, 1920; 1-3 due and payable on March 1, 1921, and 1-3 due and payable on March 1, 1922, the deferred payments to bear six percent interest and secured by lien on the land. A small payment will be required day of sale to bind contract. For further information see the undersigned, or Mr. Jones, on the premises.

WHEN HEAVY WRAPS ARE DISCARDED

It seems rather wintry but that's because of fashion's foolish habit of showing off-season stuff. As a matter of fact this is a late winter or early spring toque and sweater for the school maid when she takes off the heavy wrap. It is uncombed wool, a belted sweater with short flaring skirt. The brighter the color the better.

THE PRODUCE MARKET

On account of better weather conditions, especially in the South and Southwest, the production of eggs is heavier and prices for that reason have declined sharply this week. Prospects indicate a further decline next week, although as the price works to a lower basis, consumption will naturally become heavier.

General opinion seems to be that producers are holding the average number of hens for producing purposes and we should, therefore, see heavy production of eggs from now on.

Markets for butter have fluctuated considerably and decline has been due mostly to the fact that fair qualities of butter are coming into this country from Europe and South America, but as values work down, the demand is becoming heavier and values should not show much change until the heavy producing season.

There has been a better general movement of poultry the past week, due to the better weather conditions, and the prices now being offered to producers for their stock. However, there is not enough dressed poultry being shipped to markets and most of the large cities are now turning to frozen stock.

No, dear girl: You can't learn everything by mail. There are so many things one must learn that some of them must come by experience.

REINSTATEMENT WITHIN 18 MONTHS STILL HOLDS GOOD

To relieve any confusion that may exist in the minds of former service men on account of the special provision of lapsed War Term Insurance which authorized reinstatement up to December 31, 1919, regardless of date of discharge, announcement is made by Director R. G. Cholmeley-Jones, of the Bureau of War Risk Insurance, that the provisions for reinstatement of lapsed or cancelled insurance within 18 months from date of discharge, upon payment of only two months' premiums on the amount of insurance to be reinstated, provided the insured is in as good health as at the date of discharge or expiration of the grace period whichever is the later date, and so states in his application, still hold good.

The provision that discharged service men are permitted to reinstate at any time within three calendar months following the month of discharge by merely paying the two months' premiums, without making a formal application or a statement as to health is also still in force.

The provisions for reinstatement do not protect a man until he actually reinstates. If he waits he may not be in as good health as he was at the time of discharge and consequently may not be able to secure reinstatement.

Don't put off reinstatement. Do it now!

'CURRANT' FASHION IN SPRING BONNET

Here's a new spring bonnet that should electrify all women—at least it has "currants" enough—if you will permit the pun. The hat is of white corn straw. Its crown is covered with green, white and red currants. And it proves that the small hat is to be quite the thing for early wear.

WHERE TO KEEP ONE'S HANDS

"Keep your hands on your pocket book," is a pretty good admonition when you are in a crowd and the lights go out; but it's a bad practice to keep your hand on your pocket book too much at other times if keeping your hand there makes you spend money that you ought to save. War Savings Stamps are the best plasters for a leaky purse.

Senator Borah is writing letters to Republican presidential candidates to urge that they tell the public what opinions they have on vital issues. He seemingly does not intend to wait until his party has adopted that prize platform as a profession of faith and purpose for its next presidential nominee.

In Montana there lives a man 60 years old who has never written a letter in his life. He certainly has dodged a good bit of trouble and should live to be 110 years old if he adheres to his usual custom.

HERE'S A GOOD TOWN

Ste. Genevieve, Mo., claims to lead any town in Missouri, Arkansas or Kentucky in the amount of War Savings Stamps and Treasury Savings Certificates sold in 1919, when the population of the town is considered.

Louis P. Kern, postmaster at Ste. Genevieve, reports that he sold during 1919 War Savings Stamps of a maturity value of \$11,715 and Treasury Savings Certificates to the value of \$6,000. Postmaster Kern says that in 1920 his city will make even a more enviable record.

SHELburne V-C TOBACCO FERTILIZER

It will be shown in this crop of tobacco that the demand is almost entirely for the bright grades, and if we expect to make a paying crop it certainly behooves us to go to work to make bright tobacco. In order to do this we must plant it early and grow it quick. Every farmer in the Burley belt should use fertilizer on his plant beds and enough on his tobacco ground to give his tobacco a start and make a quick growth.

We sell only the V. C. Fertilizer, made by the Virginia-Carolina Chemical Company (the largest manufacturers of fertilizers in the world). This fertilizer has been tried all over this and every other section, and has given satisfaction. Our plant food has proven to be the best for plant beds and our Gen Tobacco Fertilizer has ammonia enough to start the plant and give it a quick growth and sufficient acid phosphate to ripen it with high color. We handle V. C. Fertilizers exclusively, and are sole agents in the Burley belt and we are prepared to ship it to all points in the tobacco belts. (33-2t) SILAS SHELburne.

The MT. STERLING ADVOCATE GOES YONDER—A man from Montana writes about Ohio farms—Saw the ad in the Advocate—another man from Bardstown, Ky., showed up today. We sold Mr. Pendleton, Mr. Steele, Mr. Goodpaster, all of near Owingsville, Ky., and they mention your paper as the happy medium. We have 250 farms to offer Montgomery county farmers in Warren, Butler, Hamilton and Clermont counties in Ohio and around Aurora, Ind. (25 miles west of city). We show land with closed ears, and you are not exposed to the weather. Come and loo them over and take possession March 1, 1920. We can fit you out if you will ride with us. **REMEMBER BOYS**, we think that Montgomery county land is good, but we claim that we have as good for less money. There are enough Kentucky farmers in Ohio now to make any of you feel at home when you get over here. My land list will please you. Send for it. We have out a "Special Kentucky Edition," now that will interest you. Mr. Huls, of Mississippi, was a former Montgomery county, Kentucky, man, and he bought a \$35,000 farm from us. We sold 20 Fleming county farmers last year in the Warren county, Ohio country, and they all know Mt. Sterling folks. Make a trip over and see this country and be convinced that it is a good place for you to make your future home. When you get to the Grand Central Depot phone us, Main 1675, and we will come and get you in machine. We have farms as low as \$3,000, and we have some extra finely improved ones up to \$60,000.00.

IT IS WARMING UP HERE COME ON AND LOOK THEM OVER

60a., oss, Ky., first class improvements; 38a. bottom land, balance blue grass hill land; fine alfalfa, tobacco, corn and truck land; only 10 miles from Fountain sq., right near C. & O. Ry., sta., on Ohio river, \$15,000.

191a., Kenton Co., Ky., 100a. blue grass; an alfalfa farm, too, at \$95a.

118a., one mile from N. & W. Ry., sta., at Sardinia; first-class improvements; \$100a.

100a., Owensville; level, good improvements; a bargain at \$10,500, one-half down.

110a., at N. & W. Ry., sta., 5-room house, large barn, silo; 8a. alfalfa, 10a. wheat, 35a. blue grass, 20a. creek bottom land; near graded school, \$6,500.

135a., 5 miles from Lebanon, O.; 2 houses, large barn; 40a. limestone hill tobacco land, balance smooth land; look it over for \$8,500.

100a., Lebanon, O.; good improvements; 25a. wheat, 25a. new meadow; \$12,500.

47a., Warren Co.; dandy little home on auto road; fine orchard; \$5,250.

51a., New Richmond, O.; first-class buildings; 400 fruit trees; fine, \$5,000

26a., Coney Island; good bldgs.; nice home, crops, tools, stock, all for \$6,500.

50a., Mt. Washington, truck land; crops, tools, stock, possession; \$10,000.

And we have some very high-class farms in Butler, Warren, Hamilton and Clermont Counties (East Fork bottom land), and white burley and alfalfa farms around Aurora, Ind. It will pay you well to ride with us and look over some of these and other propositions we have before buying elsewhere. Send for our complete list of land—large farms and small ones.

Good Cooking All The Time

Don't be too quick to blame the cook for poor, unappetizing food. Perhaps it's the fault of that old, rusty range. If you want good cooking, you must have a good range.

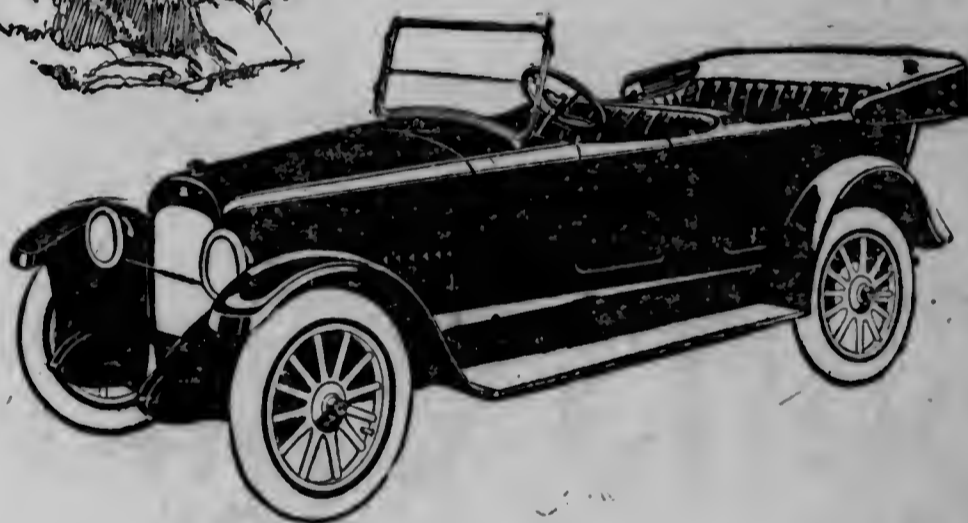

ALLEN'S PRINCESS RANGES

Housewives have been praising them for 25 years, because they are absolutely dependable. The asbestos-lined oven heats quickly but bakes evenly, and retains the heat so well that it means a big saving in fuel. Best of all, the body and top rim of the Princess is built of one piece of heavy, rust-resisting iron, which means that as the years go by, there are no joints to widen out, or bolts to loosen, thus letting in cold air to weaken the draft and cool the oven.

There are many other patented and exclusive features of the Princess beside the one-piece construction, all of them adding to its convenience and making good cooking easier.
